

BEFORE USING THIS PRODUCT READ THE LABEL CAREFULLY!

Adjuvant

CLASS ACT® NG

Reg. No. L 10477 Act/Wet No. 36 of/van 1947

1: 7/9/2016 – Sept2018

An adjuvant that contains Ammonium sulphate, a non-ionic surfactant and has humectant properties for use with water-sensitive herbicides like Glyphosates and products that require the use of a surfactant and/or Ammonium sulphate.

'n Byvoegmiddel wat Ammoniumsulfaat, 'n nie-ioniese benatter en herbenattingseienskappe bevat vir gebruik met water-sensitiewe onkruidodders soos Glifosaat asook produkte wat die gebruik van 'n benatter en/of Ammoniumsulfaat benodig.

ACTIVE INGREDIENTS / AKTIEWE BESTANDELE

ammonium sulphate **480 g/l** ammoniumsulfaat

PLUS a non-ionic surfactant / 'n nie-ioniese benatter

(Alkylpolyglycoside C8-10 / Agnique PG 8105)

CAUTION / VERSIGTIG**WARNINGS**

- May cause eye irritation.
- Store in a cool, dry, well-ventilated place.
- Store away from food, feeds, seed, fertilizers and other agricultural remedies.
- Keep out of reach of children, uninformed persons and animals.

Although this remedy has been extensively tested under a wide variety of conditions, the registration holder does not warrant that it will be efficacious under all conditions, because the action and effect thereof may be affected by factors such as abnormal soil, climatic and storage conditions, quality of dilution water, compatibility with other substances not indicated on the label as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animal for any reason whatsoever or for lack of performance of the remedy concerned, due to failure of the user to follow the instruction or to the occurrence of conditions, which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS

- Wear gloves when handling the dispenser.
- Avoid contact with skin, eyes and clothing.
- Wash thoroughly with soap and water after use and after accidental skin contact.
- In the case of eye contact, flush eyes with copious amounts of water for at least 15 minutes.
- Wash contaminated clothing after use.
- Do not eat, drink or smoke whilst mixing or applying or before washing hands and face and change of clothing.
- Thoroughly clean the applicator after use and dispose of wash water in a way that will not contaminate the environment, food, grazing and water sources.
- **TRIPLE RINSE** empty containers in the following manner: Invert the empty container over the spray or mixing tank and allow draining for at least 30 seconds after the flow has slowed down to a drip. Thereafter rinse the container three times with a volume of water equal to a minimum of a third of that of the container. Add the rinsing to the contents of the spray tank before destroying the container in the prescribed manner.
- Destroy the empty container by perforation and flattening and dispose of it in a safe way.
- **Never** re-use the empty container for any other purpose.
- Prevent contamination of food, feeds, drinking water and eating utensils.

PRODUCT PROPERTIES

- **CLASS ACT® NG** has been formulated for use with **Glyphosate** and other water-sensitive herbicides and any product that requires the addition of a surfactant and/or **Ammonium sulphate**.

USE RESTRICTIONS

- Test the mixture on a small scale before applying it commercially.

DIRECTIONS FOR USE: Use only as directed.**Compatibility:**

- **CLASS ACT® NG** can be used with products that recommend the use of a surfactant and/or **Ammonium sulphate**.
- **CLASS ACT® NG** is compatible with **Glyphosate** containing products.
- Adhere to the “**Mixing instructions**” and “**DIRECTIONS FOR USE**” for the product with which **CLASS ACT® NG** is to be used.

Mixing Instructions:

- In the event of tank mixes, strictly adhere to all the recommendations of the tank-mix components.
- **CLASS ACT® NG** should be added to the spray tank first unless otherwise directed by product labels. Prepared mixture must not be left in the spray tank for any length of time.
- **CLASS ACT® NG** is corrosive therefore the sprayer, tank and spray system should be rinsed thoroughly after use, to remove all adjuvant residues.

Application Instructions: Ground application:

CLASS ACT® NG can be used with any correctly calibrated spray equipment as recommended on the herbicide label.

Aerial application:

Adhere to all necessary precautions associated with aerial spraying of herbicides, especially with regard to control of drift. If in any doubt, consult with the supplier and/or aerial application operator.

APPLICATION RATES

<i>Herbicide</i>	<i>CLASS ACT® NG Dosage Rate</i>	<i>Remarks</i>
<i>Glyphosate containing herbicides</i>	1 to 2 % (1 to 2 l /100 litres spray solution)	Use the higher rate in cases where additional coverage is required e.g. resilient weeds or weeds with hairy or waxy surfaces or when spray water contains high levels of calcium, magnesium, sodium and potassium.
<i>Herbicides that recommend the use of a surfactant and/or Ammonium sulphate</i>		Adhere to the “ Mixing Instructions ” and “ DIRECTIONS FOR USE ” for the product with which CLASS ACT NG™ is to be used.
