

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name: CURATOR ULV
Other identifier: Permethrin 50 ULV

Recommended use: Insecticide **Restrictions on use:** Public health

Supplier: Villa Crop Protection (Pty) Ltd.

Co. Reg. No.: 1992/002474/07

PO Box 10413,

Aston Manor, 1630, South Africa

 Telephone:
 (011) 396 2233

 Fax:
 (011) 396 4666

 Website:
 www.villacrop.co.za

Emergency telephone numbers: 24 Hr Transport / Spill emergency no:

2. HAZARDS IDENTIFICATION

UN GHS, Regulation EC 1272/2008 [EU-GHS/CLP]					
EU & SANS 10234:2008					
Hazard classes	Hazard	H-statements			
	categories				
Health					
Dermal	Skin Sensitization	H317			
Aspiration	Aspiration Toxicity 1	H304			
Eye					
Environment					
Aquatic acute	Aquatic Acute 1	H400			
Aquatic chronic	Aquatic Chronic 1 H410				

The most important adverse effects:

Physiochemical effects:

None known.

Human health effects:

May cause an allergic skin reaction.

May be fatal if swallowed and enters airways.

Label elements:

Document no: 440VM

Effective date: September 2020

Revision date (version): August 2022 (3)

Product Code: PCOCURATORULV/VM

SAFETY DATA SHEET

Signal word: Danger. **Hazard statements:**

H304: May be fatal if swallowed and enters airways.

H317: May cause an allergic reaction.

H400: Very toxic to aquatic life.

H410: Very toxic to aquatic life with long lasting effects.

Precautionary statements:

P261: Avoid breathing fumes, mists, vapours or spray. P272: Contaminated work clothing should not be allowed

out of the workplace.

P273: Avoid release into the environment.

P280: Wear impervious rubber gloves and boots,

protective clothing and chemical safety goggles.

P301+P316: IF SWALLOWED: Get emergency medical

help immediately.

P302+P352: IF ON SKIN: Wash with plenty of water and

non-abrasive soap.

P331: Do NOT induce vomiting.

P333+P317: If skin irritation or rash occurs: Get medical

P391: Collect spillage. P405: Store locked up.

P501: Dispose of content/container to suitable landfill in

accordance with local regulations.

Other hazards:

None known.

Toxicity:

Classification according to GHS: Unclassified.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Substance/Mixture: Mixture.

Composition:

Chemical Name	CAS	Conc. (m/v %)	Classification EC 1272/2008
Permethrin	52645- 53-1	5 %	Acute Toxicity 4 (H302) Skin Sensitization 1 (H317) Acute Toxicity 4 (H332) Aquatic Acute 1 (H400) Aquatic chronic 1 (H410)
Aliphatic hydrocarbon	64742- 47-8	> 95 %	Aspiration Toxicity 1 (H304)

4. FIRST AID MEASURES

Remove the victim from the area of exposure. Wash off remaining material with plenty of water. In the event of any complaints or symptoms, avoid further exposure.

Inhalation: Remove person from contaminated area to fresh air and assist breathing as needed. Get medical help if irritation occurs.

Document no: 440VM

Effective date: September 2020

Revision date (version): August 2022 (3)

Product Code: PCOCURATORULV/VM

SAFETY DATA SHEET

Skin: Remove contaminated clothing and shoes. Gently wipe off excess chemical. Wash skin gently and thoroughly with water and non-abrasive soap. **Obtain medical attention if irritation or rash occurs.**

Eyes: Flush eyes with clean water for at least 15-20 minutes. Lift eyelids to facilitate irrigation. If present, remove contact lenses after 5 minutes and continue rinsing. Obtain medical attention if irritation persists.

Ingestion: Get emergency medical help immediately or call a poison control centre for treatment advice. **Do not induce vomiting.** Do not give anything by mouth to an unconscious person. If the person is alert, rinse mouth thoroughly with water.

Anticipated acute effects:

May cause an allergic skin reaction.

May be fatal if swallowed and enters airways **Anticipated delayed effects:** None known.

Most important symptoms/effects: None known. **Advice to physician:** Treat symptomatically and

supportively. No specific antidote known.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Use carbon dioxide or dry chemical for small fires and water fog or foam for large fires

Unsuitable Extinguishing Media: High volume water jet. Use a water jet only to cool heated containers.

Specific hazards: None known.

Special fire-fighting procedures: Remove spectators from surrounding area. Isolate the fire area and evacuate all personnel downwind of the fire. Fight fire from maximum distance and use unmanned hose holder or monitor nozzles. Remain upwind of fire. Avoid inhaling hazardous vapours and fumes from burning materials. Remove container from fire area if possible and without risk. Do not use high volume water jet, due to contamination risk. Do not scatter the burning material. Water can be used to cool unaffected containers but must be contained for later disposal. Contain fire control agents for later disposal. Avoid pollution of waterways by run-off from the site.

Personal protective equipment: Wear NIOSH / MSHA approved self-contained breathing apparatus and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions:

May be fatal if swallowed and enters airways.

Avoid contact with skin.

Do not breathe in spray mist or fumes/vapours Ventilate area of spill or leak, especially in contained areas.

Protective equipment: Refer to Section 8 for personal protective equipment to be worn during containment and clean-up of a spill involving this product.

Emergency procedures: Alert firefighting personnel, evacuate unprotected personnel and animals.

Environmental Precautions: Prevent spilled product from entering sewers, waterways or ground water. This product is classified to be very toxic to aquatic organisms and may cause long-term adverse effects in the aquatic environment. Any spillages or uncontrolled discharges into watercourses should be reported immediately to the police and the Department of Water/Environmental Affairs.

Methods and Materials for Containment: Contain spilled product by diking area with sand or damp earth.

Methods and Materials for Clean-up: Cover contained spill with an inert absorbent material such as sand, vermiculite, damp earth or other appropriate material. Vacuum, scoop, or sweep up material and place the material into a clean, dry, sealable container. Label containers with the contents and dispose of according to local regulations. Do not place spilled material back in original container. Do not re-use spilled material. Collect washings and add to the drums. Do not flush spilled material or washings into drains or waterways. To decontaminate the spill area, tools and equipment, wash with water and suitable detergent. See section 13 for disposal considerations.

7. HANDLING AND STORAGE

Handling:

Precautions for safe handling: May be fatal if swallowed and enters airways.

Avoid contact with skin. Do not breathe in spray mist or fumes/vapours. Ensure adequate ventilation during handling and use. Do not handle broken packages without protective equipment. Immediately clean up spills that occur during handling. Keep containers tightly closed when not in use. In the case of contact with the product, refer to First Aid Measures – Section 4.

General occupational hygiene: Practice good hygiene when using this product. Wash hands before eating, drinking, chewing gum, smoking, using the toilet or applying cosmetics. Worker should shower at the end of each workday. Launder all clothing before it is re-used.

Storage

Conditions for safe storage: Keep under lock and key and out of reach of unauthorised persons, children and animals. Store the product in its original labelled container, tightly closed in an isolated dry, cool and well-ventilated area. Avoid excess heat.

Do not store next to foodstuffs, feed and water supplies. Avoid cross contamination with other pesticides and fertilisers.

Incompatible substances and mixtures: Refer to product label.

Packaging material: Fluorinated Plastic containers.

Document no: 440VM

Effective date: September 2020

Revision date (version): August 2022 (3)

Product Code: PCOCURATORULV/VM

SAFETY DATA SHEET

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Permissible concentration: No occupational exposure limits have been determined for the significant ingredients in this product.

Engineering Controls:

It is essential to provide adequate ventilation. The measures appropriate for a particular worksite depend on how this material is used and on the extent of exposure. Local Exhaust: Provide general or local exhaust ventilation systems to maintain airborne concentrations below OELs or other specified exposure limits. Local exhaust ventilation is preferred. Ensure that control systems are properly designed and maintained. Comply with occupational safety, environmental, fire and other applicable regulations.

Personal Protective Equipment:

Respiratory Protection: For most well-ventilated conditions, no respiratory protection should be needed. If used in a poorly ventilated area (airborne concentrations exceed exposure limits), use a NIOSH approved, airpurifying respirator with cartridges / canisters approved for organic vapours.

Hand Protection: The use of chemically protective impervious gloves is recommended to prevent against skin contact.

Eye Protection: The use of chemically safety goggles is recommended to prevent against eye contact. Contact lenses are not protective eye devices.

Skin and Body Protection: Employees must wear appropriate protective impervious clothing, rubber boots, hat and equipment to prevent repeated or prolonged skin contact with this substance.

Emergency eyewash: Where there is any possibility that an employee's eyes may be exposed to this substance, the employer should provide an eye wash fountain or appropriate alternative within the immediate work area for emergency use.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Yellow liquid, homogenous, transparent.

Odour: Slight chemical odour. pH: 4.0 – 4.7 (20 ± 1°C). Melting point: Not available. Freezing Point: Not available. Boiling Point: Not available. Flash Point: ± 77 °C.

Flammability: Not flammable.

Upper/lower explosion limits: Not explosive. **Vapour Pressure (mm Hg):** Not available. **Relative Vapour Density:** Not available.

Density/Relative density: 0.8286 g/m ℓ (20 ± 1°C).

Solubility: Not available.

n-octanol/water partition coefficient: Not available.

Auto-ignition temperature: Not available. Decomposition temperature: Not available. Viscosity: 4.26 mPa.s (20 °C, speed 100 rpm).

10. STABILITY AND REACTIVITY

Chemical stability: The product is stable for two years at ambient temperature and pressure, under normal storage and handling conditions. Avoid storage under extreme temperatures and conditions. Store below 50 °C, preferably below 30 °C, and not for prolonged periods in direct sunlight.

Reactivity: None known.

Possibility of hazardous reactions: Unlikely to occur. **Incompatible materials:** Strong oxidizers, strong bases, strong reducing agents.

Hazardous decomposition products: Alcohols. carbon monoxide and carbon dioxide may form under burning conditions or with incomplete combustion.

11. TOXICOLOGICAL INFORMATION

ACUTE TOXICITY:

Calculated according to GHS. Oral LD₅₀ (24 h) > 6000 mg/kg (rat). Dermal LD₅₀ (24 h) > 38 000 mg/kg (rat). Inhalation LC₅₀ (4 h) > 10 mg/ ℓ (rat).

Skin Irritation: Not classified. **Eye Damage:** Not classified.

Skin Sensitization: May cause an allergic skin reaction.

Respiratory Sensitization: Not classified.
Reproductive cell mutagenicity: Not classified.

Carcinogenicity: Not classified.

Reproductive toxicity: Not classified.

Specific target organ toxicity – single exposure: Not classified.

Specific target organ toxicity – repeated exposure: Not classified.

Aspiration hazard: May be fatal if swallowed and enters airways.

Chronic Effects: Not classified.

POTENTIAL ADVERSE EFFECTS: Inhalation: Not classified.

Eye contact: Not classified.

Skin contact: Movement on all

Skin contact: May cause an allergic skin reaction. **Ingestion:** May be fatal if swallowed and enters airways.

12. ECOLOGICAL INFORMATION

This product is very toxic to aquatic organisms with long lasting effects.

ECOTOXICITY DATA:

Permethrin Fish:

 LC_{50} (96 h) Rainbow trout 0.0025 mg/ ℓ .

(24h)

ENVIRONMENTAL EFFECTS

Based on information for the active ingredient:

Plants: Not determined.

(Oral)(24h)

Animals: In mammals, there is hydrolysis of the ester bond, hydroxylation, and elimination as the glucoside conjugate (M. Elliott et al., J. Agric. Food Chem., 1976, 24, 270; L. C. Gaughan et al., ibid., 1978, 26, 613).

Persistence and degradability: In soil and water, degradation is rapid. DT50 in soil <38 d (pH 4.2–7.7, o.m. 1.3-51.3%) (R. L. Holmstead et al., J. Agric. Food Chem., 1978. 26. 590).

Bio-accumulative Potential: Not determined.

Mobility in soil: Not determined.

Other adverse effects: Not determined.

13. DISPOSAL CONSIDERATIONS

Waste: Open dumping or burning of this pesticide is prohibited. Waste resulting from the use of this product cannot be reused or re-processed. Never pour untreated waste or surplus product into public sewers or where there is any danger of run-off or seepage into water systems. Do not contaminate rivers, dams or any other water sources with the product or used containers. Comply with local legislation applying to waste disposal. The product containers may be taken to a registered waste disposal site or incineration plant. Where possible, recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations.

Container: Emptied containers retain vapour and product residues. Do not re-use the empty container for any other purpose. Triple rinse empty containers by inverting the empty container over the spray or mixing tank and allow draining for at least 30 seconds after the flow has slowed down to a drip. Thereafter, rinse the container three times with a volume of water equal to one guarter of that of the container. Add the rinsing's to the contents of the spray tank before recycling or destroying the container in the prescribed manner. Puncture the triple rinsed container and dispose of via an approved collector or recycler (www.croplife.co.za). Do not bury, burn or donate the container to any other parties that may use it as a
