

Control that moves Stop weeds at the source

RIMRITE 250 WDG

Active ingredient: **rimsulfuron**

Formulated as a low-dose WDG for flexible application, **RIMRITE 250 WDG** delivers selective systemic control of key **grass and broadleaf weeds in potatoes**, moving through the weed to stop growth at the source.

Selective systemic activity absorbed through foliage & roots

Controls both grass & broadleaf weeds

Translocated to growing points, stopping weed growth at the source

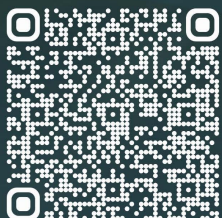

Low use rate WDG formulation for easy handling & mixing

GROUP 2 HERBICIDE
