

Put more size into every bunch

VIVEO® 10 SL

Active Ingredient: **Forchlorfenuron**

VIVEO® 10 SL is a forchlorfenuron (CPPU) plant growth regulator for use on table grapes to increase berry size and reduce berry shatter, supporting improved bunch quality

Strong berry-sizing performance at low application rates

Promotes larger, more uniform berries for improved pack-out

Helps reduce berry shatter and maintain bunch integrity

Supports premium export specifications and marketable yield

A valuable PGR tool for fine-tuning table grape quality and size
